MADE FOR KIPPIN'
WHEN THE MOON SHINES

Prohibition - a ban on the manufacture, sale or transportation of intoxicating liquors - began in the US in 1919. It gave rise to a culture of illegal bootlegging in hidden stills, secret dens and the underground "speakeasies" of the twenties and thirties. When it came to supplying this illicit merchandise, it was the Bootleggers moving it around the States. The Prohibition Act was repealed in 1933 but it's in the spirit of those era legends that Bootlegger has been created.
